Re: Updated Preliminary Flood Insurance Rate Maps (FIRMs) and Updated Preliminary Flood Insurance Study (FIS) Report for Strafford County, New Hampshire

Dear Mr. Jansen:

We are pleased to present your community with copies of the Preliminary Flood Insurance Rate Map (FIRM) and Flood Insurance Study (FIS) report for the Town of Rollinsford, Strafford County, NH for your review and comment. These preliminary documents represent a new coastal study that was conducted in your county, using updated methodology and 2-foot topographic data obtained through Light Detection and Ranging (LiDAR). The purpose of this effort is to provide your community with updated flood hazard risk information that can be utilized for mitigation actions and planning in order for your community to become more resilient to flood hazards.

You will find enclosed a DVD with the flood hazard information for Strafford County as updated by this Preliminary issuance. In addition to the DVD, a hard copy of your community's Preliminary coastal FIRM panels and FIS report were forwarded to your community's Floodplain Administrator. We have also provided a hard copy set of FIRM panels to Jennifer Gilbert, your State National Flood Insurance Program (NFIP) Coordinator, whose contact information is provided at the end of this letter.

The flood hazard information presented on the FIRM includes Special Flood Hazard Areas (SFHAs), which are the areas that would be inundated by the flood having a 1-percent chance of being equaled or exceeded in any given year, known as the base flood; as well as the corresponding Base Flood Elevations (BFEs). There are also regulatory zones in coastal areas identified as "VE Zones". These areas have been identified using National Academy of Sciences (NAS) methodology to delineate areas subject to wave heights of 3 feet or greater. In addition, these updated panels will depict a "Limit of Moderate Wave Action" (LiMWA), which represents the region subject to the limit of wave heights between 1.5 to 3 feet. The LiMWA is currently a non-regulatory demarcation on the map, but is meant to convey the risk associated with a 1.5-foot wave, which has been found through post-event damage assessment surveys to have the potential to cause substantial damage to structures built in compliance with A Zone standards. Although the LiMWA currently holds no higher building regulation requirements in the State of New Hampshire, FEMA's Coastal Construction Manual encourages building practices in these areas of increased risk follow V Zone standards.

Your community should note that there may be additional non-coastal areas where the SFHA has changed due to new studies or the use of more precise topographic data. In areas where there were no additional studies or information, the currently effective digital SFHA was incorporated onto the new base map. This work was conducted by FEMA's mapping contractor, the University of New Hampshire. Please note that the BFEs will be listed in the North American Vertical Datum (1988), which may be different from the datum used in previous flood studies.

We are sending the Preliminary copies at this time to give your community an opportunity to review them. Additionally, in an effort to assist you in circulating the information, FEMA has posted digital copies of the FIRM and FIS report materials to the following website: [www.fema.gov/preliminaryfloodhazarddata](http://www.fema.gov/preliminaryfloodhazarddata).

We are working with your State NFIP Coordinator to schedule a community coordination meeting (a "Consultation Coordination Officer [CCO]" Meeting). The purpose of this meeting will be to present the results of the study, discuss the information presented on the Preliminary FIRM and FIS report, discuss their impact on your community's participation in the NFIP, and give your community a chance to comment or ask questions. In the meantime, we strongly encourage you to thoroughly review the enclosed copy, and circulate it as widely as possible among elected officials, staff, and other individuals or organizations in the community that would have an interest in the FIRM and FIS report, so that they will also have the opportunity to review them thoroughly before the formal community coordination meeting. We will contact you once this meeting has been scheduled. The meeting will be at least 30 days after the issuance of this letter.

This review period also provides your community with an opportunity to identify changes and corrections to non-technical information. These may include corporate limits, road names, bridges, stream names, etc. on the FIRM or in the FIS report. Please send comments to Alex Sirotek at the Regional Service Center, 99 High Street, 3<sup>rd</sup> Floor, Boston, Massachusetts 02110. We will consider all comments and changes received during this period and will incorporate them, as appropriate, before the FIRM and FIS report become effective.

To assist your community in maintaining the FIRM, we have enclosed a Summary of Map Actions (SOMA) to document previous Letters of Map Change (LOMCs) (i.e., Letters of Map Amendment [LOMAs], Letters of Map Revision [LOMRs]). We reviewed our records for any previous LOMCs (i.e., LOMAs and LOMRs) for your community. The SOMA reflects the LOMCs found in our records for your community. Please compare your records with this SOMA list, to ensure that we have included all LOMCs that you have in your files.

Information on LOMCs is presented in the following four categories:

- (1) LOMCs for which results are shown on the FIRM;
- (2) LOMCs for which results could not be shown on the FIRM because of scale limitations. However, these LOMCs are still valid. LOMCs in Category 2 will be revalidated through a single letter that reaffirms the validity of previously issued LOMCs; the letter will be sent to your community shortly before the effective date of the FIRM and will become effective one day after the FIRM becomes effective.
- (3) LOMCs for which results are being superseded by new or revised flood hazard information. These LOMCs will not be revalidated and the community floodplain manager should notify the property owners.
- (4) LOMCs listed in Category 4 are not revalidated. FEMA will, however, review existing and/or new data to make a determination for the affected properties after the FIRM becomes effective. The community floodplain manager should notify property owners that they must reapply for the LOMC determination after the FIRM becomes effective. FEMA will then respond to their application with a determination, which will be sent to both the applicant and the community.

After the CCO Meeting, a statutory 90-day appeal period is required when FEMA adds or modifies BFEs, base flood depths, SFHAs, flood zone designations, or regulatory floodways within a community, as shown on the Preliminary FIRM. We will send you a letter approximately 2 weeks before the start of the 90-day appeal period to detail the appeal process. The letter will forward information regarding notifications to be published in the FEDERAL REGISTER and local newspaper(s) and will provide the first and second publication dates. The

appeal period will start on the second publication date. Additional information concerning the 90-day appeal period will be provided during the CCO Meeting.

All comments and appeals received through the end of the 90-day appeal period will be considered and incorporated as appropriate. Following the resolution of all comments and appeals, FEMA will issue a Letter of Final Determination (LFD). When FEMA issues the LFD, the community must adopt the new FIRM panels and FIS within 6 months in order to remain in good standing with the NFIP.

The new FIRM and FIS report for your community will become effective 6 months after the LFD date. Before the effective date, you will be notified in writing of the official FIRM and FIS report effective date and asked to adopt floodplain ordinances or modify existing ordinances as necessary that correspond with the new FIRM or FIS report. If you or other community officials have any questions regarding floodplain ordinances, you may raise them with our FEMA Regional Office or you may discuss those issues with your State NFIP Coordinator. Several months before the effective date, we will mail one set of printed copies of the finalized FIRM and FIS report and digital copies of the map and report products.

Your community's comments on the Preliminary FIRM panels and FIS report are an important part of our mapping process, and we will consider them carefully before we publish the FIRM and FIS report in their final form. If you have any questions regarding the Preliminary copies of the FIRM and FIS report, please contact John Grace, CFM, the FEMA Coastal Engineer designated for your community, at (617) 832-4715 or by email at [John.Grace@fema.dhs.gov](mailto:John.Grace@fema.dhs.gov). If you have any questions regarding the necessary floodplain management measures for your community or the NFIP in general, we urge you to contact Jennifer Gilbert, New Hampshire State NFIP Coordinator, at (603) 271-2155 or by email at [Jennifer.Gilbert@nh.gov](mailto:Jennifer.Gilbert@nh.gov).

Sincerely,

Richard Verville, Chief  
Hazard Mitigation Assistance Branch

FEMA

<b>Project Name:</b>	<i>New Hampshire Piscataqua/Salmon Falls Basin Coastal Project</i>
<b>Meeting:</b>	<i>Risk MAP CCO Meeting</i>
<b>Date and Time:</b>	<i>May 8, 2014 at 2:30 PM</i>
<b>Place:</b>	<i>Dover City Hall Auditorium Central Ave. Dover, NH 03820</i>

**Participants (30 total)\***

Municipalities – Barrington, Dover (5), Rye (Rockingham County community)

State Agencies – DES (3), HSEM (9)

Project Team – UNH (2), USGS, OEP (3)

FEMA Region I/RSC - FEMA (2)

Others – Piscataqua Region Estuaries Partnership, Office of US Senator Shaheen, Private Industry, University of New Hampshire

\* Note that several FEMA and project team members did not sign in, and are not reflected in this count.

The meeting began at 2:30 PM with introductions of the project team. Fay Rubin, Project Director (UNH), provided an overview of the project goals and schedule. She also reviewed “universal” changes that are reflected on the new maps, e.g. new topographic data, datum conversion to NAVD88, new index maps, and new panel design.

Rob Flynn (USGS) discussed the riverine analyses that were conducted for the project.

Fay Rubin then reviewed the flood risk products that were generated.

Richard Verville (FEMA Region 1) reviewed hazard mitigation and flood insurance topics. He was followed by Chris Markesich (FEMA Region1), who discussed the Community Rating System. John Grace (FEMA Region 1) then presented slides on the post-preliminary processing steps.

Jennifer Gilbert (NH NFIP Coordinator, NH OEP) then discussed resources available on the project web site she maintains.

The final meeting segment was devoted to comments and questions.

Hard copy of all map panels was available for review by participants prior to and after the meeting, with project team members available for consultation. In addition, a laptop was available (with all GIS data loaded) for further exploration of the preliminary products.

The affected community is listed in the following table. Flood hazard determination information for the community is available for inspection at both the online location and the respective community map repository address listed in the table below. Additionally, the current effective FIRM and FIS report for the community is

accessible online through the FEMA Map Service Center at [www.msc.fema.gov](http://www.msc.fema.gov) for comparison.

#### Correction

In the notice published at 79 FR 27332, the table contained inaccurate information for the associated community map repository address for

LOMR case number 13-06-3803P for the City of Denton, Denton County, Texas, featured in the table. In this notice, FEMA is publishing a table containing the accurate information to address this prior error. The information provided below should be used in lieu of that previously published for the City of Denton.

State and county	Location and case No.	Chief executive officer of community	Community map repository	Online location of Letter of Map Revision	Effective date of modification	Community No.
Texas: Denton .....	City of Denton (13-06-3803P).	The Honorable Mark A. Burroughs Mayor, City of Denton, 215 East McKinney Street, Denton, TX 76201.	901-A Texas Street, Denton, TX 76209.	<a href="http://www.msc.fema.gov/lomr">http://www.msc.fema.gov/lomr</a> .	July 28, 2014 .....	480194

(Catalog of Federal Domestic Assistance No. 97.022, "Flood Insurance.")

### Federal Emergency Management Agency

[Internal Agency Docket No. FEMA-4173-DR; Docket ID FEMA-2014-0003]

#### Indiana; Amendment No. 3 to Notice of a Major Disaster Declaration

**AGENCY:** Federal Emergency Management Agency, DHS.

**ACTION:** Notice.

**SUMMARY:** This notice amends the notice of a major disaster declaration for the State of Indiana (FEMA-4173-DR), dated April 22, 2014, and related determinations.

**DATES:** *Effective Date:* July 1, 2014.

#### FOR FURTHER INFORMATION CONTACT:

Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-2833.

**SUPPLEMENTARY INFORMATION:** The notice of a major disaster declaration for the State of Indiana is hereby amended to include the following area among those areas determined to have been adversely affected by the event declared a major disaster by the President in his declaration of April 22, 2014.

Lake County for Public Assistance.

Lake County for snow assistance under the Public Assistance program for any continuous 48-hour period during or proximate to the incident period.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

**W. Craig Fugate,**

## DEPARTMENT OF HOMELAND SECURITY

### Federal Emergency Management Agency

[Docket ID FEMA-2014-0002; Internal Agency Docket No. FEMA-B-1415]

#### Proposed Flood Hazard Determinations

**AGENCY:** Federal Emergency Management Agency, DHS.

**ACTION:** Notice.

**SUMMARY:** Comments are requested on proposed flood hazard determinations, which may include additions or modifications of any Base Flood Elevation (BFE), base flood depth, Special Flood Hazard Area (SFHA) boundary or zone designation, or regulatory floodway on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports for the communities listed in the table

below. The purpose of this notice is to seek general information and comment regarding the preliminary FIRM, and where applicable, the FIS report that the Federal Emergency Management Agency (FEMA) has provided to the affected communities. The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP). In addition, the FIRM and FIS report, once effective, will be used by insurance agents and others to calculate appropriate flood insurance premium rates for new buildings and the contents of those buildings.

**DATES:** Comments are to be submitted on or before October 7, 2014.

**ADDRESSES:** The Preliminary FIRM, and where applicable, the FIS report for each community are available for inspection at both the online location and the respective Community Map Repository address listed in the tables below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at [www.msc.fema.gov](http://www.msc.fema.gov) for comparison.

You may submit comments, identified by Docket No. FEMA-B-1415, to Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, FEMA, 500 C Street SW., Washington, DC 20472, (202) 646-4064, or (email) [Luis.Rodriguez3@fema.dhs.gov](mailto:Luis.Rodriguez3@fema.dhs.gov).

**FOR FURTHER INFORMATION CONTACT:** Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, FEMA, 500 C Street SW., Washington, DC 20472, (202) 646-4064, or (email) [Luis.Rodriguez3@fema.dhs.gov](mailto:Luis.Rodriguez3@fema.dhs.gov); or visit the FEMA Map Information eXchange (FMIX) online at

[www.floodmaps.fema.gov/fhm/fmx\\_main.html](http://www.floodmaps.fema.gov/fhm/fmx_main.html).

**SUPPLEMENTARY INFORMATION:** FEMA proposes to make flood hazard determinations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These flood hazard determinations are used to meet the floodplain

management requirements of the NFIP and also are used to calculate the appropriate flood insurance premium rates for new buildings built after the FIRM and FIS report become effective.

The communities affected by the flood hazard determinations are provided in the tables below. Any request for reconsideration of the revised flood hazard information shown on the Preliminary FIRM and FIS report that satisfies the data requirements outlined in 44 CFR 67.6(b) is considered an appeal. Comments unrelated to the flood hazard determinations also will be considered before the FIRM and FIS report become effective.

Use of a Scientific Resolution Panel (SRP) is available to communities in support of the appeal resolution process. SRPs are independent panels of experts in hydrology, hydraulics, and other pertinent sciences established to review conflicting scientific and technical data and provide

recommendations for resolution. Use of the SRP only may be exercised after FEMA and local communities have been engaged in a collaborative consultation process for at least 60 days without a mutually acceptable resolution of an appeal. Additional information regarding the SRP process can be found online at [http://floodsrp.org/pdfs/srp\\_fact\\_sheet.pdf](http://floodsrp.org/pdfs/srp_fact_sheet.pdf).

The watersheds and/or communities affected are listed in the tables below. The Preliminary FIRM, and where applicable, FIS report for each community are available for inspection at both the online location and the respective Community Map Repository address listed in the tables. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at [www.msc.fema.gov](http://www.msc.fema.gov) for comparison.

## DEPARTMENT OF HOMELAND SECURITY

### Federal Emergency Management Agency

[Docket ID FEMA-2014-0002; Internal Agency Docket No. FEMA-B-1419]

### Proposed Flood Hazard Determinations

**AGENCY:** Federal Emergency Management Agency, DHS.

**ACTION:** Notice.

**SUMMARY:** Comments are requested on proposed flood hazard determinations, which may include additions or modifications of any Base Flood Elevation (BFE), base flood depth, Special Flood Hazard Area (SFHA) boundary or zone designation, or regulatory floodway on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports for the communities listed in the table below. The purpose of this notice is to seek general information and comment regarding the preliminary FIRM, and where applicable, the FIS report that the Federal Emergency Management Agency (FEMA) has provided to the affected communities. The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP). In addition, the FIRM and FIS report, once effective, will be used by insurance agents and

others to calculate appropriate flood insurance premium rates for new buildings and the contents of those buildings.

**DATES:** Comments are to be submitted on or before October 7, 2014.

**ADDRESSES:** The Preliminary FIRM, and where applicable, the FIS report for each community are available for inspection at both the online location and the respective Community Map Repository address listed in the tables below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at [www.msc.fema.gov](http://www.msc.fema.gov) for comparison.

You may submit comments, identified by Docket No. FEMA-B-1419, to Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, FEMA, 500 C Street SW., Washington, DC 20472, (202) 646-4064, or (email) [Luis.Rodriguez3@fema.dhs.gov](mailto:Luis.Rodriguez3@fema.dhs.gov).

**FOR FURTHER INFORMATION CONTACT:** Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, FEMA, 500 C Street SW., Washington, DC 20472, (202) 646-4064, or (email) [Luis.Rodriguez3@fema.dhs.gov](mailto:Luis.Rodriguez3@fema.dhs.gov); or visit the FEMA Map Information eXchange (FMIX) online at [www.floodmaps.fema.gov/fhm/fmx\\_main.html](http://www.floodmaps.fema.gov/fhm/fmx_main.html).

**SUPPLEMENTARY INFORMATION:** FEMA proposes to make flood hazard determinations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or

pursuant to policies established by other Federal, State, or regional entities. These flood hazard determinations are used to meet the floodplain management requirements of the NFIP and also are used to calculate the appropriate flood insurance premium rates for new buildings built after the FIRM and FIS report become effective.

The communities affected by the flood hazard determinations are provided in the tables below. Any request for reconsideration of the revised flood hazard information shown on the Preliminary FIRM and FIS report that satisfies the data requirements outlined in 44 CFR 67.6(b) is considered an appeal. Comments unrelated to the flood hazard determinations also will be considered before the FIRM and FIS report become effective.

Use of a Scientific Resolution Panel (SRP) is available to communities in support of the appeal resolution process. SRPs are independent panels of experts in hydrology, hydraulics, and other pertinent sciences established to review conflicting scientific and technical data and provide recommendations for resolution. Use of the SRP only may be exercised after FEMA and local communities have been engaged in a collaborative consultation process for at least 60 days without a mutually acceptable resolution of an appeal. Additional information regarding the SRP process can be found online at [http://floodsrp.org/pdfs/srp\\_fact\\_sheet.pdf](http://floodsrp.org/pdfs/srp_fact_sheet.pdf).

The watersheds and/or communities affected are listed in the tables below. The Preliminary FIRM, and where applicable, FIS report for each community are available for inspection at both the online location and the respective Community Map Repository address listed in the tables. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at [www.msc.fema.gov](http://www.msc.fema.gov) for comparison.

**DEPARTMENT OF HOMELAND SECURITY**

**FEDERAL EMERGENCY MANAGEMENT AGENCY**

**Proposed Flood Hazard Determinations for Strafford County, New Hampshire  
(All Jurisdictions)**

The Department of Homeland Security's Federal Emergency Management Agency has issued a preliminary Flood Insurance Rate Map (FIRM), and where applicable, Flood Insurance Study (FIS) report, reflecting proposed flood hazard determinations within **Strafford County, New Hampshire (All Jurisdictions)**. These flood hazard determinations may include the addition or modification of Base Flood Elevations, base flood depths, Special Flood Hazard Area boundaries or zone designations, or the regulatory floodway. Technical information or comments are solicited on the proposed flood hazard determinations shown on the preliminary FIRM and/or FIS report for **Strafford County, New Hampshire (All Jurisdictions)**. These flood hazard determinations are the basis for the floodplain management measures that your community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program. However, before these determinations are effective for floodplain management purposes, you will be provided an opportunity to appeal the proposed information. For information on the statutory 90-day period provided for appeals, as well as a complete listing of the communities affected and the locations where copies of the FIRM are available for review, please visit FEMA's website at [www.fema.gov/plan/prevent/fhm/bfe](http://www.fema.gov/plan/prevent/fhm/bfe), or call the FEMA Map Information eXchange (FMIX) toll free at 1-877-FEMA MAP (1-877-336-2627).

Edmund Jansen  
Chairperson, Board of Selectmen  
Town of Rollinsford  
667 Main Street  
Post Office Box 309  
Rollinsford, New Hampshire 03869-0309

Case No.: 12-01-1575S  
Community: Town of Rollinsford,  
Strafford County, New Hampshire  
Community No.: 330190

Dear Mr. Jansen:

On April 9, 2014, the Department of Homeland Security's Federal Emergency Management Agency (FEMA) provided your community with Preliminary copies of the Flood Insurance Rate Map (FIRM) and Flood Insurance Study (FIS) report for Strafford County, New Hampshire (All Jurisdictions). FEMA has posted digital copies of these FIRM and FIS report materials to the following Website: <http://www.fema.gov/preliminaryfloodhazarddata>. The Preliminary FIRM and FIS report include proposed flood hazard information for certain locations in the Town of Rollinsford, Strafford County, New Hampshire. The proposed flood hazard information may include addition or modification of Special Flood Hazard Areas, the areas that would be inundated by the base (1-percent-annual-chance) flood; base flood elevations or depths; zone designations; or regulatory floodways.

We have published a notice of the proposed flood hazard determinations in the FEDERAL REGISTER and will publish a public notification concerning the appeal process (explained below) in the *Portsmouth Herald* and *Foster's Daily Democrat* on or about August 26, 2014, and September 2, 2014. We will also publish a separate notice of the flood hazard determinations on the "Flood Hazard Determinations on the Web" portion of the FEMA Website ([www.fema.gov/plan/prevent/fhm/bfe](http://www.fema.gov/plan/prevent/fhm/bfe)). We have enclosed copies of the notice published in the FEDERAL REGISTER and the newspaper notice for your information.

These proposed flood hazard determinations, if finalized, will become the basis for the floodplain management measures that your community must adopt or show evidence of having in effect to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP). However, before any new or modified flood hazard information is effective for floodplain management purposes, FEMA will provide community officials and citizens an opportunity to appeal the proposed flood hazard information presented on the preliminary FIRM and FIS report posted to the above-referenced Website.

Section 110 of the Flood Disaster Protection Act of 1973 (Public Law 93-234) is intended to ensure an equitable balancing of all interests involved in the setting of flood hazard determinations. The legislation provides for an explicit process of notification and appeals for your community and for private persons prior to this office making the flood hazard determinations final. The appeal procedure is outlined below for your information and in the enclosed document titled *Criteria for Appeals of Flood Insurance Rate Maps*.

During the 90-day appeal period following the second publication of the public notification in the above-

named newspaper, any owner or lessee of real property in your community who believes his or her property rights will be adversely affected by the proposed flood hazard determinations may appeal to you, or to an agency that you publicly designate. It is important to note, however, that the sole basis for such appeals is the possession of knowledge or information indicating that the proposed flood hazard determinations are scientifically or technically incorrect. The appeal data must be submitted to FEMA during the 90-day appeal period. Only appeals of the proposed flood hazard determinations supported by scientific or technical data can be considered before FEMA makes its final flood hazard determination at the end of the 90-day appeal period. Note that the 90-day appeal period is statutory and cannot be extended. However, FEMA also will consider comments and inquiries regarding data other than the proposed flood hazard determinations (e.g., incorrect street names, typographical errors, omissions) that are submitted during the appeal period, and will incorporate any appropriate changes to the FIRM and FIS report before they become effective.

If your community cannot submit scientific or technical data before the end of the 90-day appeal period, you may nevertheless submit data at any time. If warranted, FEMA will revise the FIRM and FIS report after the effective date. This means that the FIRM would be issued with the flood hazard information presently indicated, and flood insurance purchase requirements would be enforced accordingly, until such time as a revision could be made.

Any interested party who wishes to appeal should present the data that tend to negate or contradict our findings to you, or to an agency that you publicly delegate, in such form as you may specify. We ask that you review and consolidate any appeal data you may receive and issue a written opinion stating whether the evidence provided is sufficient to justify an official appeal by your community in its own name or on behalf of the interested parties. Whether or not your community decides to appeal, you must send copies of individual appeals and supporting data, if any, to:

Fay Rubin, Project Manager  
Earth Systems Research Center  
Eight College Road  
University of New Hampshire  
Durham, New Hampshire 03824  
and/or  
John Grace, CFM  
FEMA Region I  
99 High Street, Sixth Floor  
Boston, Massachusetts 02110

If we do not receive an appeal or other formal comment from your community in its own name within 90 days of the second date of public notification, we will consolidate and review on their own merits such appeal data and comments from individuals that you may forward to us, and we will make such modifications to the proposed flood hazard information presented on the FIRM and in the FIS report as may be appropriate. If your community decides to appeal in its own name, all individuals' appeal data must be consolidated into one appeal by you, because, in this event, we are required to deal only with the local government as representative of all local interests. We will send our final decision in writing to you, and we will send copies to the community floodplain administrator, each individual appellant, and the State NFIP Coordinator.

All appeal submittals will be resolved by consultation with officials of the local government involved, by an administrative hearing, or by submission of the conflicting data to an independent scientific body or appropriate Federal agency for advice. Use of a Scientific Resolution Panel (SRP) is also available to your community in support of the appeal resolution process when conflicting scientific or technical data are submitted during the appeal period. SRPs are independent panels of experts in hydrology, hydraulics, and

other pertinent sciences established to review conflicting scientific and technical data and provide recommendations for resolution. An SRP is an option after FEMA and community officials have been engaged in a collaborative consultation process for at least 60 days without a mutually acceptable resolution of an appeal. Please refer to the enclosed "Scientific Resolution Panels" fact sheet for additional information on this resource available to your community.

FEMA will make the reports and other information used in making the final determination available for public inspection. Until the conflict of data is resolved and the FIRM becomes effective, flood insurance available within your community will continue to be available under the effective NFIP map, and no person shall be denied the right to purchase the applicable level of insurance at chargeable rates.

The decision by your community to appeal, or a copy of its decision not to appeal, should be filed with this office no later than 90 days following the second publication of the flood hazard determination notice in the above-named newspaper. Your community may find it appropriate to call further attention to the proposed flood hazard determinations and to the appeal procedure by using a press release or other public notice.

If warranted by substantive changes, during the appeal period we will send you Revised Preliminary copies of the FIRM and FIS report. At the end of the 90-day appeal period and following the resolution of any appeals and comments, we will send you a Letter of Final Determination, which will finalize the flood hazard information presented on the FIRM and FIS report and will establish an effective date.

If you have any questions regarding the proposed flood hazard determinations, FIRM panels, or FIS report for your community, please call our FEMA Map Information eXchange (FMIX), toll free, at 1-877-FEMA MAP (1-877-336-2627) or e-mail the FMIX staff at [FEMAMapSpecialist@riskmapcds.com](mailto:FEMAMapSpecialist@riskmapcds.com).

Sincerely,

Luis Rodriguez, P.E., Chief  
Engineering Management Branch  
Federal Insurance and Mitigation Administration
